**Johnny Metz**

**Assistant Superintendent of Operations**

November 7, 2017

Dear Parent and/or Guardian,

This letter is to notify you of issues we are dealing with, at our school campuses, in regards to electronic devices. Students are not allowed to use their personal device or cell phone to connect to the school's network or wifi system. Students may not use their personal devices as a hotspot or bring mifis to school. These items interfere with the school network.

Only devices that belong to Newton ISD may be connected to the school's network. If a student does not abide by these rules, consequences will be assigned by the campus administrator. The district appreciates your support and cooperation as we educate our students in the digital world.

Sincerely,

Michelle L. Barrow  
Superintendent
