

Medicare Eligible Employees/Retirees Notice

Are you reaching age 65 within the next ninety days? If YES, you should be enrolling in Medicare. You can do this online at: <https://www.ssa.gov/benefits/medicare> or you can schedule a visit with the local Social Security Administration Office in Geneva, NY (315) 781-0103.

Even if you are actively working and are turning 65, you must enroll in Medicare. You should contact the School Business Administrator at Dundee CSD at (607) 243-5533 x7703 to chat about your options and discuss your enrollment in Medicare. You may not need to enroll in both Part A and Part B. You may also be able to remain on your current medical insurance policy.

If you are retired from Dundee CSD and currently have a medical policy through the school district, you MUST enroll in a Medicare plan when you are Medicare eligible. Contact the School Business Administrator to explore policy options through the school district.
