Ph.: (870) 777-3743 Fax: (870) 777-8591

April 20, 2022

Recipient Name

Dear Administrators,

The Migrant Education Program will be doing an area recruitment sweep the first week of May in your area. As you may already be aware, our Title I program targets families who work/have worked in the agriculture, forestry, or fishing industry whose job has been seasonal or temporary in nature.

Please send this message out to your parents through your media blast or *Remind please:

There will be a team of education staff in the area May 2nd – 5th working with our school district in an effort to identify and qualify students for free supplemental education services and supplies. We want you to be aware that they will be in the area and may make contact with you. You may also receive door hangers or see flyers with more information about the education program.

Sincerely,

LaRanda Clayton
