School Library

A district possesses significant discretion to determine the content of its school libraries. A district must, however, exercise its discretion in a manner consistent with the First Amendment.

Removal of Library
Materials

Students' First Amendment rights are implicated by the removal of books from the shelves of a school library. A district shall not remove materials from a library for the purpose of denying students access to ideas with which the district disagrees. A district may remove materials because they are pervasively vulgar or based solely upon the educational suitability of the books in question.

Bd. of Educ. v. Pico, 457 U.S. 853 (1982)

**Instructional
Materials**

Instructional materials selected for use in the public schools shall be furnished without cost to students attending those schools. Except as provided by Education Code 31.104(d), a district may not charge a student for instructional material or technological equipment purchased by the district with the district's technology and instructional materials allotment [see CMD]. *Education Code 31.001*

Parental Access

A parent is entitled to:

1. Review all teaching materials, instructional materials, including while the child is participating in virtual or remote learning, and other teaching aids used in the classroom of the parent's child;
2. Review each test administered to the child after the test is administered; and
3. Observe virtual instruction while the parent's child is participating in virtual or remote learning to the same extent the parent would be entitled to observe in-person instruction of the child.

A district shall make tests readily available for review by parents in person and teaching materials readily available for review by parents both in person and, if applicable, through an instructional materials portal established under Education Code 31.154 [see CMD].

The district may specify reasonable hours for in-person review. A district may not deny a parent access to an instructional materials parent portal.

Review Period

In providing access to instructional materials to a student's parent under this provision, the district shall allow access beginning not later than 30 days before the school year begins and concluding not earlier than 30 days after the school year ends.

For the entire period, the district shall include access to all instructional materials that pertain to each subject area in the grade level

in which the student is enrolled, except for tests or exams that have not yet been administered to the student and the student's graded assignments.

*Taking Home
Materials*

A student's parent is entitled to request that a district allow the student to take home any instructional materials used by the student. Subject to the availability of the instructional materials, a district or school shall honor the request. A student who takes home instructional materials must return the instructional materials to school at the beginning of the next school day if requested to do so by the student's teacher.

*Students Without
Reliable Access
to Technology*

A district must provide the instructional materials to the student in printed format if the student does not have reliable access to technology at the student's home. This requirement does not require a district to purchase printed copies of instructional materials that the district would not otherwise purchase. A district may comply with this requirement by providing the student a printout of the relevant electronic instructional materials.

*Learning
Management
System or Online
Portal*

A district that uses a learning management system or any online learning portal to assign, distribute, present, or make available instructional materials as defined by Education Code 31.002 [see EFA] to students shall provide login credentials to the system or portal to each student's parent.

Education Code 26.006

**District Instructional
Material Review**

The board shall establish a process by which a parent of a student, as indicated on the student registration form at the student's campus, may request an instructional material review under Education Code 31.0252 [see below] for a subject area in the grade level in which the student is enrolled.

The process:

1. May not require more than one parent of a student to make the request;
2. Must provide for the board to determine if the request will be granted, either originally or through an appeal process; and
3. May permit the requesting parent to review the instructional material directly before the district conducts an instructional material review.

If the parents of at least 25 percent of the students enrolled at a campus present to the board in which the campus is located a petition for the board to conduct an instructional material review under Education Code 31.0252, the board shall conduct the review, un-

less the petition is presented by the parents of less than 50 percent of the students enrolled at the campus and, by a majority vote, the board denies the request. A review shall include a review of instructional materials for each subject area or grade level specified in the petition.

The board is not required to conduct a review for a specific subject area or grade level at a specific district campus more than once per school year.

Parental access to instructional material provided by an instructional material review conducted under this provision is in addition to any other right to access instructional material granted by the Education Code or school district policy.

Education Code 26.0061

The Texas Education Agency (TEA) shall develop standards that a district may use to conduct a review of instructional materials used by a classroom teacher in a foundation curriculum course to determine the degree in which the material corresponds with the instructional materials adopted by the district and meets the level of rigor of the essential knowledge and skills for the grade level in which it is being used.
