

STUDENT COUNCIL PRESIDENT: TONIANN RISELVATO

It is an honor and privilege to be standing before my fellow classmates today wishing them luck on their future endeavors. My high school experience was one that I will never forget, and I hope all of you can say the same. I anticipate that you all will take the knowledge and advice given to us during our four years here and apply it throughout the rest of your lives. But if I could give my classmates any sort of advice, it would be to stay true to who you are. Who you were in high school does not determine who you will become in the future. Life leaves us a chance to make mistakes and grow from them. Follow your gut instincts and do what you feel is right. If you set your mind to something, stop at **nothing** to get it. Never, **ever** be afraid to be who you truly are. Your family, friends, and loved ones believed in all of you throughout our time here. Now it is time to believe in yourselves. The journey to success is an exciting one. Enjoy every minute of it and stay on the right path; eventually everything will fall into place. Thank you and congratulations class of 2012, we did it!
