A message from our Superintendent

Dr. Jocelyn Hively

As the Superintendent of the Standard School District, I am deeply honored and humbled to lead and serve our students, staff, families, and community. Over the past 7 years, Standard has been more than just a workplace—it's been a second home, and I am profoundly grateful for the opportunity to collaborate with our dedicated Board of Education, administrators, teachers, classified personnel, and support staff. Together, we remain steadfast in our commitment to our District's mission of inspiring every student to excel daily, offering exceptional instruction, programs, and support to our students and families.

Community Schools

What Is a Community School?

A community school is a public school that serves TK-8th grade and has community partnerships that support improved academic outcomes, whole-child engagement, and family development. Partnership strategies include integrated support services, extended learning time, and collaborative leadership and practices for educators and administrators.

Community schools use this community-driven shared decision-making approach to increase access to nurses, counselors, and social workers. This creates campuses that are community hubs where students and families have easy access to the services needed to close opportunity gaps.

Community Cabinet Day

Standard School District has been fortunate to receive a California Community Schools implementation grant. Our first primary focus is on addressing chronic absenteeism in our schools through a collaborative approach. To achieve this, it is crucial to connect students and families with other partners and agencies to remove barriers to regular school attendance. By working together, we can advocate more effectively for our students and find ways to enhance communication between school district staff and community partners, thereby increasing the number and frequency of services provided.

"Mr. Newby has been teaching 5th Grade at Highland for eight years. He has served as the Student Council advisor for the past eight years, served on the School Site Council for three years, and is currently assisting with piloting the inclusion program this year. He assists whenever and wherever needed for the benefit of our campus, staff, and students. Matt often serves under the radar - not wanting to be the center of attention or to have attention directed his way. He gives his best in any situation, no matter the task."

STANDARD ELEMENTARY SPOTLIGHT

"Mrs. Cushman goes above and beyond for her students on a daily basis. She continually has an upbeat attitude and works to reach each of her kids on an individual level. She also takes time to, not only be in charge of the science fair, but work tirelessly with the students on their projects. Mrs. Cushman is a huge inspiration. I admire her tenacity and go-getter attitude. She is ingrained in our school culture and is the first one to take on any committee, group, and/or responsibility that is thrown her way. She is a great friend, teacher, and colleague. This is Mrs. Cushman's 10th year as a teacher."
