

Parents and Guardians,

Waurika Elementary is happy to provide transportation services to every student who requires it. We are continuously evaluating our transportation practices to insure that the safest possible care is being provided.

- The transportation form must be completed and on file for every student. This form allows for one primary bus stop and one alternative. A new transportation form must be filled out in the event of change of residence.
- Students will be transported to and from the primary bus stop unless prior notification is made in the student's agenda for the alternative. Agenda's must be noted for every child in the family, not just one.
- Any emergency or extenuating circumstance that would change the child's destination must be handled through the elementary office, not the student's teacher. An emergency consists of hospitalization, death, ect.
- If a student will be a car rider rather than a bus rider, this information must be provided in the student's agenda.
- Students in Pre-K, Kindergarten and First grade will not be dropped off at the bus stop unless the driver is able to see an adult present or is accompanied by an older sibling. If the driver does not see an adult, the student will be brought back to the school and the parent will be notified to come pick up the child. After the first offense we will begin to enforce our suspension policy.

If you have any questions feel free to contact elementary office 580-228-3531.
