

ASBESTOS MANAGEMENT PLAN STATEMENTS

A complete inspection for asbestos containing material (ACM) has been conducted and there is no need for removal of the asbestos at this time. Every six months the buildings will be surveyed to see if the condition of the asbestos has changed. If there is a change in the condition, proper steps will be taken to ensure the safety of all students, employees, and other occupants of the buildings. Results of the analysis are available for public inspection during normal school hours. (This notification is included in the school district student handbook, employee handbook, and posted on the district website – annually).
