

Course Lesson Plans

Team: Biology

Biology - Monday, September 14, 2015

Learner Objectives:

Students will Review scientific method, characteristics of life and measurements.

Activities/ Practices:

Chapter 1 Review

Class review

Technology Integration:

MODs:

Repeated review

Extended time on Assignments

Shortened answer choices

Read aloud by teacher when needed or required

Biology - Tuesday, September 15, 2015

Learner Objectives:

Students will Master lab safety, scientific method, characteristics of life, and measurements.

Activities/ Practices:

Chapter 1 TEST

Ch 2 Vocabualry

Technology Integration:

Google Slides, Eduphoria

MODs:

Repeated review

Extended time on Assignments

Shortened answer choices

Read aloud by teacher when needed or required

Biology - Wednesday, September 16, 2015

Learner Objectives:

Students will differentiate between atoms, ions, and molecules.

Activities/ Practices:

Notes over BioChemistry

Ch 2 Vocabulary

Technology Integration:

Google Slides, Pear Deck EDpuzzle

MODs:

Repeated review

Extended time on Assignments

Shortened answer choices

Read aloud by teacher when needed or required

Biology - Thursday, September 17, 2015

Learner Objectives:

Students will distinguish the properties of water.

Activities/ Practices:

Notes BioChemistry Ch 2

Notes Quiz from yesterday

Technology Integration:

Pear Deck, Google Slides, Socrative

HW- pg 41 1-5; pg 45 1-4 due Friday

MODs:

Repeated review

Extended time on Assignments

Shortened answer choices

Read aloud by teacher when needed or required

Biology - Friday, September 18, 2015

Learner Objectives:

Students will Examine carbon compounds needed in the body and their functions

Activities/ Practices:

Notes Ch 2

Think Pair Share - Reading

Technology Integration:

Pear Deck, Edpuzzle, Google Slides

MODs:

Repeated review

Extended time on Assignments

Shortened answer choices

Read aloud by teacher when needed or required
