

Whitesboro Public School wants you to become a Whitesboro Bulldog. Come be part of something that will challenge, change, and define your life and future. Our staff cares about you and believes in the potential you have yet to discover. Whitesboro High School has the mission to prepare you academically and socially to meet tomorrow's challenges. We offer blended, virtual, and traditional school academic programs combined with a strong concurrent college enrollment program to help ensure all students have an avenue for success. Students are provided one-to-one technology, which includes a chrome book, flash/jump drive, backpack, headset and hot spot, along with downloadable and web based software. Our state qualifying FFA program encompasses land and forest judging, livestock showing, public speaking, and leadership development. We provide the opportunity for our elementary students to be a part of the 4-H program to grow into well-polished FFA High School students. Business Professionals of America (BPA), Family, Career and Community Leaders of America (FCCLA), National Honor Society (NHS), Native American Honor Society (NAHS), and other organizations provide social opportunities to enhance leadership skills. The state qualifying basketball, baseball, softball, cross country, track and archery teams provide students with an avenue to grow the talents you possess. Your choice in schools will define your success. Make sure your definition of success includes a Bulldog – a Whitesboro Bulldog.

Please call for an appointment to see the campus or discuss being a part of our virtual student program.
