Indiahoma Trash-Off Day

Thanks to all who participated in our annual trash-off event. With all the wind and all the trash, it takes everyone's continual efforts to keep our town clean.

April, National Humor Month

The Importance of a Sense of Humor

Humor can help you out in life. Laughing at yourself when you do something stupid is better than getting mad or being embarrassed. If you look at things in a positive way then your day will be better. Learn to laugh and not take things so seriously.

Laughter is the best medicine. Did you know that laughing can lengthen your life span? It is a source of happiness and a major stress reliever. Laughing makes everything happy and fun. Humor will get you through life.

Laugh off your silly mistakes and brighten someone else's day with humor. The more you laugh, the happier you are.

From the comedic minds of:

Morgan Davis, Bryanna Froehlich, Katharine Henson, Eric Kenney, Taylor Longacre, Elizabeth Rowland and Audrianna Willson.

Laugh & be happy and the world will laugh with you
When people see you smiling they can't help smiling too

When you look out the window to a dark and gloomy day
Break out a smile and in a while the gloom will go away

Laugh & be happy with a merry melody
A song can make a hat rack look like a Christmas tree

Get rid of worry in a hurry, Chase your blues away
Just laugh & be happy all the live long day.

THE HEALTHY YOU

People need to realize that their health is based on what they eat and what they put into their bodies. If you want to be healthy then eat healthy foods.

Cut down on sweets like soda, candy and other non-nutritional sugary treats. Avoid fast foods that are high in fat, salt and sugar. These "bad" foods make you fat, rot your teeth and make your face break out.

Instead, eat real food like fresh vegetables and fruits. You can eat them with meals or as a snack. Eat more sea food and whole grains.

By eating healthy you will have more energy, be more active and have more fun.
