Test Taking Tips

- Budget your time, make sure you have sufficient time to study so that you are well prepared for the test.
- Go to review sessions, pay attention to hints that the instructor may give about the test. Take notes and ask questions about items you may be confused about.
- Ask the instructor to specify the areas that will be emphasized on the test.
- Go over any material from practice tests, sample problems, review material, the textbook, class notes...
- Eat before a test. Having food in your stomach will give you energy and help you focus but avoid heavy foods which can make you groggy.
- Get a good night's sleep before the test (normally 8 hours of sleep is recommended so that you'll be well rested enough to focus during the test).
- Put the main ideas/information/formulas onto a sheet that can be quickly reviewed many times, this makes it easier to retain the key concepts that will be on the test.
- Try to show up at least 5 minutes before the test will start.

Trustworthiness

April's character pillar is Trustworthiness.

According to Wikipedia trustworthiness is: a moral value considered to be a virtue. A trustworthy person is someone in whom you can place your trust and rest assured that the trust shall not be betrayed. A person can prove their trustworthiness by fulfilling an assigned responsibility - and as an extension of that, not to let down expectations. The responsibility can be either material, such as delivering a mail package on time, or it can be non-material such as keeping an important secret to themselves. A trustworthy person is someone that you can tell your worries and secrets to and know they won't repeat them without your permission. In general, in order for trust to be earned, worth and integrity must be proven over time.
