Guidance

Between now and January 1, 2017 KSDE will be providing guidance relative to the implementation of SB 323 as well as adding resources to our KSDE School Counseling Resources web page

KSDE encourages districts to develop partnerships with local and regional mental health centers and educational service centers to provide evidenced based training materials and technical assistance in developing crisis plans that meet the statutory requirements. This is also true for districts who plan on utilizing evidence based “independent self-review of suicide materials” that is intended to satisfy the requirements of the statute. An example of this is the curriculum available through the Jason Flatt Foundation located at
