Non-Resident Request Form

The schools in USD #449 are maintained for the primary benefit of the residents of the district. Non-resident students will be admitted only to the extent that staff, facilities, equipment and supplies are available. Any non-resident who desires to be admitted to the schools of the district will submit an application to the principal of the school they wish to attend. The principal will contact the administration and/or the counselor of the school the student presently attends to make an attempt to determine a student's previous academic performance and disciplinary status. By completing and signing this document the parent or guardian is agreeing to release their child's academic, attendance, and disciplinary records to Easton USD #449 administrators.

The principal will make his/her recommendations to the Superintendent of Schools and the Board of Education. The decision of the Superintendent and the Board of Education on any such application will be final. Applications will not be considered during the school term.

- Applications must include the reasons for making the request.
- Requests for non-resident admission are considered on an individual basis.
- No application will be approved if such approval would increase or further increase a projected class size beyond the district's class size standard or beyond building capacity.
- Non-resident students who have been approved must be enrolled and attending prior to September 20th of any given year.
- Non-resident students are required to reapply each year.
- Non-resident students approved for admission will be subject to the same fees as students residing within the district.
- Non-resident students may board and depart our buses along their regular routes if seating space is available. If space is unavailable transportation shall be the responsibility of the parent/guardian.
- Non-resident students admitted to the district shall be evaluated each semester using the following criteria: academic standing (did the student make progress); attendance (was the student's attendance regular and punctual) and disciplinary record (did the student abide by the student conduct code and avoid major disciplinary problems or a large number of referrals for minor disciplinary problems). Students may be readmitted or denied admission for the next school year based on the results of these meetings.

Application For Non-Resident Students

This is a voluntary arrangement between the parent/guardian and the school district and shall be reviewed annually. A non-resident student will be enrolled only after an application to attend has been approved. For the purpose of this policy, a student's legal residence shall be determined in accordance with state statute K.S.A. 72-1046.
