

Section 100

PHILOSOPHY OF EDUCATION

The education of its students is the primary objective of this district. Education is both a right and a privilege and all students attending this school are entitled to grow intellectually, morally, and physically.

We believe that all students can make a beneficial contribution to the democratic society in which we live. Although the abilities and learning requirements of each student may be different, all students can succeed if provided equitable opportunities to develop competencies in the basic skills and high-order thinking skills.

The education of individual students is the goal of the school, and teachers are the most important factor in that process.
