

(REGULATION)
TRANSPORTATION
SCHOOL-OWNED VEHICLES AND EQUIPMENT

Oil and other fluids shall be inspected and maintained by each person who refuels a vehicle every time they refuel the vehicle.

No motor vehicle owned or leased by the district shall be used or driven by any person for any purpose not related to the usual, ordinary, or necessary business of the District.

No employee of the Chandler School District will ever be permitted to transport students in the back of an open pickup or on the open bed of a truck or on fenders or bumpers of a vehicle. Students will not be permitted to drive school vehicles away from the school campus under any circumstances.

Nothing contained in this policy shall be construed to prevent any vehicle from being used for the usual and ordinary purposes for which such vehicles are used in the operation of the school, or for the transportation of administrators, teachers, and other employees to professional seminars and meetings which promote the efficient and optimum performance of their duties.

Any misuse or abuse of school district equipment will be cause for the superintendent to have the vehicle parked and locked until a suitable corrective action plan can be prepared and implemented.
