

Dear Parent or Guardian,

One of our school programs that assist with your child's education is our Title VI Indian Education program. This paper is to inform you of what TITLE VI is and what the benefits for your school and child are.

This form enrolls your child into the program. The grant will benefit your child until they graduate from Chandler High School. The enrollment form should be filled out and returned to your child's school.

On the form, clearly print the student's FULL name, date of birth, school name and parent information. Please list the tribe name and if you know the degree of Indian blood. Proof of degree of Indian blood falls on the parent. If there is NO Indian Blood in your family tree then answer with 'NONE'.

We need a form on file for every student whether or not they are Native American.
