### **New Business:**

#### **1. 4:00-4:30 Review Wheatland's Mission and Vision**

Elton Armbrister reviewed the mission and vision statements from Wheatland Elementary. The mission statement reads: We believe in developing the whole child in order to ensure that all students at WES will learn and achieve to the best of their ability. Mr. Armbrister noted that several parents have commented about how friendly the staff is in the building.

The core values and beliefs are: curriculum, instruction, assessment, and environment. The staff has done a good job of working with updates and understanding of the new curriculum, standards, and grading system. Rigor and relevance has been a focal point for this school year, as well.

**Thank you for serving on the Wheatland Site Council this year! ☺**
