Creating a Spirit of Inquiry through the 7 Norms of Collaboration

- **Pausing for Thinking** - Pause after a question is asked and after someone speaks.
- **Paraphrasing** - Communicate value and an intent to understand. Use "you" and "we" instead of "I."
- **Probing** – Explore thinking and seek specificity. Please say more..., *I'm curious about...*, *I'd like to hear more about...*
- **Putting Ideas on the Table** – *I'm putting this on the table...*, *Here is an idea for consideration...*, *One possible approach might be...*; Know when to pull ideas off the table - *This idea seems to be blocking us...*
- **Providing Data** - Center dialogue on data. *The data...*, *This information...*, *That chart...*, *The article...*, *The student work...*
- **Paying Attention to Self and Others** - Pay attention to what you say, how you say it, and how others react to it.
- **Presuming Positive Intentions** - Believe that others mean well.
