Fidget Cubes & Spinners PLEASE HELP!!!

Fidget Cubes & Spinners are designed to be FOCUS TOOLS not toys that distract. When used correctly in the right situation, fidgets and spinners can help a child be a better listener, sustain attention on their work, and even calm down or slow down the body and mind. Please explain to your child that if s/he brings one to school and it is used as a toy or as a distraction from the learning process it will be taken away.
