

## REDWATER ISD PROHIBITED SOFTWARE

The following is a list of software that is unapproved, is incompatible with our current network configuration, or violates RISD's Acceptable Use Policy. This list is not complete because any software not on the approved list or not approved by the technology contact is prohibited. When responding to work requests and conducting periodic audits, technology contacts will report any prohibited software found to the campus principal.

Any messaging/chat agents or clients that constantly utilize network bandwidth to check outside messages or e-mail (AOL Instant Messenger, Yahoo Messenger, MSN Messenger, etc.)

Any program that is designed for the collection or sharing of music. (Kaaza, Morpheus, Napster, Gnutella, etc.)

Any program which accesses the Internet without user intervention (Weatherbug, weather, breaking news, sports scores, etc.)

Screensavers and wallpapers that are not part of the Windows operating system (Webshots, downloaded screensavers, etc.)

Radios (MSN Radio, Spinner, Radio@Netscape Plus, etc.)

Clock synchronizers (Atomic Clock Sync, Precision Time)

Web/Search Toolbars (My Search Bar, Yahoo Toolbar, HotBar, etc.)

Mouse Pointers and Cursors (Comet Cursor, etc.)

Common Name	Date Manager	Gator	Unlicensed Software
Coupon Manager	Gain	Save Now
