

Change Display

a. Press **WINDOWS + P**

b. Select the **Control Panel** from the Start menu and then choose **Display**. Then select **Connect to a projector**.

Computer Only- the computer content will only appear on the computer screen

Duplicate- the computer content will be mirrored on both the computer screen and projector screen

Extend- the computer content will remain on the computer screen, and the projector screen will act like extra screen space. (This is usually used when wanting to use the computer while students view something else like a video or document on the projector screen.)

Projector Only- the computer content will only appear on the projector screen
