

**Granger Independent School District**  
**1:1 Technology**  
**Lending Program Manual**

Granger ISD uses Instructional Technology as one way of enhancing the mission to prepare and inspire all students for life-long success by teaching the skills, knowledge and behaviors students will need as responsible citizens in the global community. Students learn collaboration, communication, creativity, and critical thinking in a variety of ways throughout the school day. Excellence in education requires that technology is seamlessly integrated throughout the education program. In an effort to increase access to those 21st century skills, Granger ISD has made it a goal to offer students a 24/7 accessibility to their learning through the technology lending program. The individual use of technology is a way to empower students to maximize their full potential and to prepare them for college and the workplace.

The program includes providing Granger ISD-owned Chromebooks to all students in the school year. An important component of the program will be education about digital citizenship and appropriate online behaviors. We will review cyber-safety rules with students frequently throughout the school year, and will offer reminders and reinforcement about safe online behaviors.

The policies, procedures and information within this document apply to all computers used at Granger ISD. Teachers may set additional requirements for use in their classroom.

**A. RECEIVING AND RETURNING YOUR CHROMEBOOK**

**1. Receiving Your Device**

Chromebooks will be distributed at the beginning of each school year. Parents and students must sign and return the Chromebook Loan Agreement, the Acceptable Use Policy Acknowledgment form and the G Suite for Education consent Form before beginning participation in the program. You are encouraged to complete these documents as part of the registration process so that students can obtain a device and begin working on the first day of school.

**2. Returning Your Device**

Devices will be returned during the final week of school. Seniors will turn in the device at the end of the school year as part of the normal graduation activities. If a student graduates early, withdraws, or is expelled from Granger ISD prior to the end of the school year, the device will be returned at that time.

**3. Failure to Return the Chromebook**

Individual Chromebooks and accessories must be returned at the end of each school year. If a student fails to return the device and accessories at the end of the school year or upon termination of enrollment in Granger ISD, the student will be responsible for the replacement of the Chromebook and may be subject to criminal prosecution or civil liability. Failure to return the Chromebook will result in a theft report being filed with the Williamson County Sheriff's Office. Furthermore, the student will be responsible for any damage to the Chromebook, consistent with the District's Damage/Loss Agreement Form.

**B. CARE OF YOUR CHROMEBOOK**

Insurance is available for \$27.00 cash/check through the library, or may be purchased through the online store on the website for \$29.00. Students are strongly encouraged to purchase the insurance as repair fees can cost up to \$250.00. Students are responsible for the general care of the Chromebook they have been issued by the school. Devices that are broken or fail to work properly should be taken to the technology department for evaluation of the equipment.

**1. General Precautions**

- The device is Granger ISD property, and all users will follow these policies and the Acceptable Use Policy for technology.
- Only use a clean, soft cloth to clean the screen, no cleansers of any type.
- Cords and cables must be inserted carefully into the device to prevent damage.
- Chromebooks must remain free of any writing, drawing, or labels that are not the property of GISD.

- Chromebooks must never be left in an unlocked locker, unlocked car or any unsupervised area, including locker rooms.
- Students are responsible for keeping their Chromebook battery charged for school each day. Letting the Chromebook fully discharge can result in a hard drive crash. This will require a re-image of the device and loss of any and all documents saved to the Chromebook.
- Avoid extreme heat or cold.

## 2. Carrying Chromebook

The carrying cases provide sufficient padding to protect the Chromebooks from normal treatment and provide a suitable means for carrying the device. Carrying cases are NOT optional. The guidelines below should be followed:

### Screen Care

The Chromebook screens can be damaged if subjected to rough treatment. The screens are particularly sensitive to damage from excessive pressure on the screen.

- Do not lean on the top of the device when it is closed.
- Do not attempt to rotate the screen.
- Do not place anything near the Chromebook that could put pressure on the screen.
- Do not place anything in the carrying case that will press against the cover.
- Clean the screen with a soft, dry cloth or anti-static cloth.
- Do not "bump" the Chromebook against lockers, walls, car doors, floors, etc., as it will eventually break the screen.
- Do not slam the Chromebook closed.

## C. USING YOUR CHROMEBOOK AT SCHOOL

Laptops are intended for use at school each day. In addition to teacher expectations for Chromebook use, school messages, announcements, calendars and schedules may be accessed using the Chromebooks. Students are ***responsible for bringing their device to all classes every day***, unless specifically instructed not to do so by the school principal.

### 1. Chromebooks Left at Home

If a student leaves the Chromebook at home, the student is responsible for getting the course work completed as if the device was present. If a student repeatedly leaves the Chromebook at home, the student may be subject to disciplinary consequences.

### 2. Chromebook Undergoing Repair

Loaner Chromebooks may be issued to students when they leave their device for repair in with the technology department. There may be a delay in getting a Chromebook should the school not have enough to loan.

### 3. Charging Your Laptop's Battery

Devices must be brought to school each day in a fully charged condition. Students need to charge their Chromebooks each evening. Repeat violations of this policy may result in the imposition of disciplinary consequences.

### 4. Screensavers/Background Photos

- Inappropriate media may not be used as a screensaver or background photo.
- Presence of guns, weapons, pornographic materials, inappropriate language, alcohol, drug, gang-related symbols or pictures will result in disciplinary actions.

### 5. Printing

A component of the program is encouraging a paperless environment. However, if necessary, students will be given information and instruction on printing with the Chromebook at school.

## 6. Internet Access

Free wireless access will be provided by Granger ISD on campus. The District is not responsible for personal charges for accessing other wireless connections or other data charges.

## 7. Saving Documents and Other Work

For document storage, students are encouraged to email documents or save work on the Google Drive account provided by Granger ISD. All Google accounts provided by the district are the property of Granger ISD, and as so, are subject to access by administrators and teachers. There is no assumption of privacy allotted or implied to these accounts.

# D. SOFTWARE ON LAPTOPS

## 1. Installed Software and Applications

The software/applications installed by GISD must remain on the Chromebook in usable condition and be easily accessible at all times. From time to time the school may add or remove software applications for use in a particular course.

## 2. Additional Software and Applications

Additional software other than GISD approved software will **not** be allowed on the device. For questions please contact the technology director. Students will not be responsible for loading extra software and applications on their Chromebooks.

## 3. Software Upgrades

Upgrade versions of licensed software/applications are available from time to time. Chromebooks update automatically. Shutdowns of the Chromebook will be required from time to time to complete the updates.

# DI. ACCEPTABLE USE

With the program, you are being given access to the Granger ISD's electronic communications system. Through this system, you will be able to communicate with other schools, colleges, organizations, and people around the world through the Internet and other electronic information systems/networks. You will have access to hundreds of databases, libraries, and computer services all over the world.

With this opportunity comes responsibility. It is important that you read the ***District Acceptable Use Policy*** and ask questions if you need help in understanding it. It will be your responsibility to follow the rules for appropriate use. Inappropriate system use will result in the loss of the privilege of using this educational and administrative tool.

Please note that the Internet is a network of many types of communication and information networks. It is possible that you may run across some material you might find objectionable. While Granger ISD uses filtering technology to restrict access to such material, it is not possible to absolutely prevent such access. It will be your responsibility to follow the rules for appropriate use.

**Violations may result in disciplinary action up to and including suspension and/or expulsion for students. When applicable, law enforcement agencies may be involved.**

## 1. Acceptable Use

In addition to the Granger ISD Acceptable Use of Technology Policy (See page 10), the following guidelines should be observed. Any use described below is deemed "acceptable" and consistent with the Granger ISD Acceptable Use Guidelines for Technology. The final decision regarding whether any given use of the network or Internet is acceptable lies with the Superintendent or designee.

# G Suite for Education Consent for Use

To parents and guardians,

At Granger ISD, we use G Suite for Education, and we are seeking your permission to provide and manage a G Suite for Education account for your child. G Suite for Education is a set of education productivity tools from Google including Gmail, Calendar, Docs, Classroom, and more used by tens of millions of students and teachers around the world. At Granger ISD, students will use their G Suite accounts to complete assignments, communicate with their teachers, sign into their Chromebooks, and learn 21st century digital citizenship skills.

The notice below provides answers to common questions about what Google can and can't do with your child's personal information, including:

- What personal information does Google collect?
- How does Google use this information?
- Will Google disclose my child's personal information?
- Does Google use student personal information for users in K-12 schools to target advertising?
- Can my child share information with others using the G Suite for Education account?

Please read it carefully, let us know of any questions, and then sign below to indicate that you've read the notice and give your consent. If you don't provide your consent, we will not create a G Suite for Education account for your child. [Your school/district may wish to describe here how not providing consent to use Google services will impact the educational experience. For example, students who cannot use Google services may need to use other software to complete assignments or collaborate with peers.]

I give permission for Granger ISD to create/maintain a G Suite for Education account for my child and for Google to collect, use, and disclose information about my child only for the purposes described in the notice below.

Thank you,

Technology Director
