

Arkansas City Public Schools USD 470

Erate Technology Purchases RFP March 15, 2019

Overview

Arkansas City Public Schools USD 470, to be referred to as USD 470 or the district in this document, is soliciting a Request For Proposals (RFP) for the items listed in this document. The District is seeking the best solution to meet our UPS battery backup needs. Reliability, affordability, and durability will all be considered.

RFP responses should include all costs regarding hardware, software, shipping, and any other cost associated with the particular item. Responses should also include a detailed description of the factory warranty as well as the process for submitting items for hardware failure repair. RFP responses must be submitted to **Bob Squires, Director of Technology, by 2:00 p.m. on March 15, 2019**, to be considered in this process. Any entry that is entered after this date and time will not be considered. **Responses may be submitted via email.**

USD 470 will review and score each RFP response based on the predefined assessment criteria noted below. As a result, items such as solution price, capability, interoperability, and brand reputation/experience may be considered in the final selection decision. In the event, the primary selection cannot provide the products an alternate company will be used.

Upon selection, the company will communicate with district staff regarding delivery timelines. All products will be expected to be delivered at the price indicated in the RFP. All contracts and supporting documentation will be approved by both parties before any costs are incurred. Contracts may be reviewed by district counsel and any contract terms that are not acceptable by the district may be grounds for dismissing the selected vendor.

A vendor-neutral approach is taken for this project. The offering must correspond to current inventory and technical compatibility. Lack of required functionality is not acceptable. Any solution proposed must be interoperable with USD 470's current network environment.

USD 470 – Arkansas City Public Schools reserves the right to accept any part of a proposal and reject any and/or all proposals in response to this request. Force Majeure is in effect.

Items for this RFP -

Brands and models are listed for comparison purposes. Comparable models will be considered.
(Shipping and/or freight along with warranties must be included.)

Description	Item	Quantity
1950 VA / 1920 W Networked, Rack Mountable Uninterruptible Power Supply (UPS)	EATON 5PX 2200VA XTND RUN LCD+ PERP RACK/TOWER 2U 120V Mfg part number 5PX2200RT	12
External Battery Module Rack Mountable - Battery enclosure	EATON 5PX 48V EXT BAT PK PERP RACK/TOWER 2U Mfg part number 5PXEBM48RT	12
The two items above combine for an extended time of uninterrupted power. A single unit solution is also acceptable.		
5000 VA / 4500 W Networked, Rack Mountable Uninterruptible Power Supply (UPS)	9PX 5KVA NEMA PERP Mfg part number 9PX5K	1
5760 W Rack Mountable Power Distribution Unit	EPDU MA 2U IN L6-30P 24A 1P OUTPERP 12XC134XC19 Mfg part number EMAU06-10	1
Power Management Software	INTELLIGENT POWER MGR SILVER VLIC Mfg part number PQ-66925	1

Conventions

Throughout this document technical terminology or jargon may be used to describe a solution or technology. All effort has been made to use a common vernacular that is commonly accepted in the IT industry. If there is confusion about the meaning of a particular term, questions can be submitted to Bob Squires, Director of Technology. In no way will responses to these inquiries postpone or change the due date for proposals.

RFP responses must be submitted to **Bob Squires, Director of Technology, by 2:00 p.m. on March 15, 2019**, to be considered in this process. Value-added components may be offered if desired. Only complete responses will be considered, omissions or errors will be the responsibility of the respondent. Please use the format of the Cost Form located at the end of this document when submitting proposed item costs.
