

## **Cooper Independent School District Internet Safety Policy**

### **Introduction**

It is the policy of Cooper ISD to: (a) prevent user access over its computer network to, or transmission of, inappropriate material via Internet, electronic mail, or other forms of direct electronic communications; (b) prevent unauthorized access and other unlawful online activity; (c) prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors; and (d) comply with the Children's Internet Protection Act [Pub. L. No. 106-554 and 47 USC 254(h)].

### **Definitions**

Key terms are as defined in the Children's Internet Protection Act.

### **Access to Inappropriate Material**

To the extent practical, technology protection measures (or "Internet filters") shall be used to block or filter Internet, or other forms of electronic communications, access to inappropriate information.

Specifically, as required by the Children's Internet Protection Act, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed harmful to minors.

Subject to staff supervision, technology protection measures may be disabled for adults or, in the case of minors, minimized only for bona fide research or other lawful purposes.

Cooper ISD utilizes the 8e6 content filtering provided by NTRETN and has a secondary content filter subscription through its district firewall.

### **Inappropriate Network Usage**

To the extent practical, steps shall be taken to promote the safety and security of users of the Cooper ISD online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications.

Specifically, as required by the Children's Internet Protection Act, prevention of inappropriate network usage includes: (a) unauthorized access, including so-called 'hacking,' and other unlawful activities; and (b) unauthorized disclosure, use, and dissemination of personal identification information regarding minors.

### **Education, Supervision and Monitoring**

It shall be the responsibility of all members of the Cooper ISD staff to educate, supervise and monitor appropriate usage of the online computer network and access to the Internet in accordance with this policy, the Children's Internet Protection Act, the Neighborhood Children's Internet Protection Act, and the Protecting Children in the 21<sup>st</sup> Century Act.

Procedures for the disabling or otherwise modifying any technology protection measures shall be the responsibility of the Technology Director or designated representatives.

The Superintendent or designated representatives will provide age appropriate training for students who use the Cooper ISD Internet facilities. The training provided will be designed to promote Cooper ISD commitment to:

- a. The standards and acceptable use of Internet services as set forth in the Cooper ISD Internet Safety Policy;
- b. Student safety with regard to:

  - ii. appropriate behavior while on online, on social networking Web sites, and in chat rooms; and
  - iii. cyber bullying awareness and response.

Following receipt of this training, the student will acknowledge that he/she received the training, understood it, and will follow the provisions of the District's acceptable use policies.
