What do you enjoy the most about your chosen profession?

Having to overcome challenges, meeting new people everyday, travel and fashion.

Was there a teacher who made a positive impact you or helped direct your path when you were a Renwick student? How did they inspire you?

(Andale High School Family and Consumer Science teacher) Kim Spexarth was always so positive and encouraging. She believes in her students and pushes them to be whatever they want. My third grade teacher at Andale Elementary Wendy Haynie-Cosby was amazing as well.

Advice to current Renwick students preparing for college?

Don't be in such a hurry to graduate. It's so cliché, but soak up high school and enjoy spending time with your parents. Live in the dorms your freshman year and have your schedule double checked by advisors when you do get to college to make sure you're always on track.

What kind of a difference did your time as a student at Renwick make for you?

Renwick has a great sense of community, small class sizes, and extracurricular activities that everyone gets involved in. I loved knowing who my teachers and classmates would be. There's a huge sense of pride that the Renwick towns all participate in and the teachers I had were all very willing to set aside time to help students learn.
