Parent Information

This year, the District and Andale High School is transitioning to a new communication system. We have phased out the EZschool Messaging system and will now be using the Remind application. Many of our teachers and coaches have already been successfully using this communication tool to reach out to students and parents. The District and AHS, however, will use this app to communicate urgent messages such as, school cancellations, to our parents and staff. That being said, it is **vitaly important** that you sign up for this application. Please access this [link](#) for further information.
