

Cumby Independent School District

Return to Learn

Safe Return to In-Person Instruction and Continuity of Service Plan

Message from the Superintendent and the Cumby ISD School Board

Dear Cumby Trojans,

Shelly Slaughter, Cumby ISD Superintendent, and the Cumby ISD School Board recognizes that open lines of communication and public support are vital to a successful educational environment. We encourage everyone to stay informed on decisions made, as well as to let board members know opinions on important issues. The District's top priority is always student and staff safety, and is the driving force behind this plan.

The guidance in this document was developed in collaboration with faculty and staff, state and local health officials, and Cumby ISD leadership team. This document and the guidance therein may be adjusted based on current and changing situations; the updates will be communicated to students, staff, and the community via our school website and through our call system.

We are looking forward to a wonderful and safe 2022-2023 school year!

#WeAreCumby!!!

Cumby ISD COVID-19 Protocol and Start Up Plan

Purpose: The purpose of this protocol is to allow for guidance during COVID-19 outbreaks or any additional viruses with correlating symptoms to severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).

Training: Staff members will be provided with training that will include:

- Symptoms
- How it spreads
- How to protect oneself/others, self-actions, handwashing, hand sanitizer, covering cough/sneeze, use of PPE, and staying home when ill
- Workplace protection strategies

Screenings: Cumby ISD requires daily, self-screening at home prior to arrival. Upon arrival faculty, staff, and students' temperatures will be taken.

- Parents must ensure they do not send a child to school if the child has COVID-19 symptoms (as listed in this document) or is lab-confirmed with COVID-19.
- Staff and students should not enter campuses or district buildings if any of the following apply:
 - Has 2 or more COVID-19 symptoms as listed below
 - Has a confirmed case of COVID-19
 - Has a household member who is awaiting COVID-19 test results, or who is awaiting their own test results
 - Has traveled internationally within the last 14 days

The district may require further screening of employees or students at any time based on current local, state and federal guidelines.

Substantial	High number of active cases relative to population
	Cases increasing rapidly
	Strain on hospital beds/staff/equipment
Moderate	Moderate number of active cases relative to population
	Cases are increasing slightly or staying steady
	Hospital/ICU beds and equipment are still available
Low	Small number of active cases relative to population
	Cases are decreasing; More cases are attributed to travel or close contact than to unknown community sources
	Hospital / ICU beds and equipment are widely available

If your child has an immunosuppressed condition or illness, please notify the school nurse before the first day of school or as soon as possible.

Symptoms: Staff and students should remain at home from school at the first sign of symptoms or illness. Anyone exhibiting any of the following symptoms without other known diagnosis should not be sent or come to school until a diagnosis is provided by a physician.

- Cough
- Sneezing
- Shortness of breath or difficulty breathing
- Chills, repeated shaking
- Persistent headache or not relieved with medication
- Sore throat
- Loss of taste or smell
- Diarrhea
- Feeling feverish or a measured temperature greater than or equal to 100.0 degrees Fahrenheit, or
- Feeling tired or weak
- Muscle pain
- Stuffy or runny nose
- Hives or rashes
- Confusion
- Pain or pressure in chest that doesn't go away
- Painful blue or purple lesions on toes (COVID toes)
- Bluish tint on lips, face or fingernails
- Eye irritation, watery eyes

Protocol for reporting COVID-19 positive results and potential exposure:

Executive orders from Governor Abbot will be followed, and CDC guidelines should be followed to the extent possible. These guidelines will be updated as new information is provided.

Although each case will be unique and different, the assessment tool used and followed will be the same for all students and staff. The level of potential exposure is what determines the level of precautions, notifications, need for quarantine or school closure.

STUDENT PROCESS FOR COVID-19

- Student reports someone **at home** has symptoms OR someone at home has tested positive, but they themselves do not have any symptoms:
 - This would be considered prolonged exposure to someone with COVID-19 or symptoms of COVID-19.
 - Students/parents should notify the school nurse, (903) 243-7077.
 - Students will be encouraged to contact their primary care physician for guidance and ask for doctor recommendations.
 - If wanting to attend school, they may “test to stay” which means daily testing in the mornings at school for 5 days, or stay home for 5 days isolated away from the positive case or person with symptoms. Each case will be evaluated on a daily basis and decisions will be made based on the situation and symptoms/circumstances. Vaccination status and recent COVID illness will play a role.
- If a student reports experiencing two or more symptoms of COVID-19 while at school
 - They will be immediately provided with a mask if not already wearing one and referred to the nurse for further screening and evaluation.
 - They will be placed in an isolation area away from other students and staff to be evaluated by the nurse.
 - Nurse will notify the principal of the results of the evaluation and parent contact will be made for discussion of options at that time.
- If a student reports two or more COVID-19 symptoms BEFORE entry to the school building:
 - They will be immediately provided with a mask if not already wearing one and referred to the nurse for further screening and evaluation.
 - They will be placed in an isolation area away from other students and staff to be evaluated by the nurse.
 - Nurse will notify the principal of the results of the evaluation and parent contact will be made for discussion of options at that time.
 - If the student is reporting symptoms from the home setting, they will be encouraged to contact their primary care physician for guidance, but testing would also be offered in the nurse office if desired.
- If a student reports they are positive for COVID-19:
 - Students/parents should notify the school nurse, (903) 243-7077, and remain at home for 5 days and return on day 6, as long as symptoms have improved and they have been fever free (without medication) for at least 24 hours. Day one starts on the first day symptoms start, or if asymptomatic on the day of a positive test.

Same protocol will be used for staff members

Social Emotional and Mental Health Support Systems

We will address the mental health and social-emotional development of all students, staff, and community by following the best practices in the areas of:

- School-based mental health services
- Behavioral support systems
- Family engagement and support practices
- Staff supports
- Other key systems and supports

Face Coverings:

For the 2022-2023 school year, face coverings are optional at Cumby ISD. Students, staff, and visitors may wear face coverings if they choose, but they are not required while on campus or at school activities. The Cumby ISD Board of Trustees determined on May 22nd, 2021, in a regular meeting of the Board that wearing masks would be optional beginning June 1st 2021. Cumby ISD will abide by current Texas Governor Orders. Texas is currently under Executive Order GA-36 issued on May 18th, 2021 which prohibits governmental entities and officials from mandating face coverings. However, Cumby ISD would like to stress that masks do assist in mitigating the risk. The district maintains the ability to require face coverings if the situation changes, such as a higher transmission level or governor's order. Cumby ISD will continue to work with the Hopkins County Health Department and follow recommendations from this entity should health conditions change in our area.

Social Distancing:

Every effort will be made to implement recommended social distancing in the school setting based on community transmission levels.

Visitor Access to Building:

- In order to limit potential exposure for staff and students, visitors **will be** allowed only after screening in the front office.
- Any visitor who has COVID-19 symptoms, is positive, or has a household member who is positive with an individual who is lab confirmed with COVID-19 must remain off campus for at least 5 days, unless “test to stay” is in place as mentioned above.

Disinfecting and Hand Sanitizing Protocols Hand Washing/Sanitizing Expectations:

- Hand sanitizer will be available at the main entry to the campus, in classrooms, in the cafeteria, and in common areas throughout the campus.
- Staff will be expected to regularly wash or sanitize their hands.
- Hand sanitizer will be provided each time students enter or leave the classroom.
- Hand sanitizer will be provided if students move to a different work location within the classroom.
- Students will be required to thoroughly wash hands after recess, before eating and following restroom breaks.

Supplies and Materials:

- The sharing of supplies will be limited and discouraged.
- Staff/ Students will utilize disinfectant wipes to sanitize high-touch and working surfaces.

Campus Cleaning Protocols Daily Campus Cleaning:

- Each classroom will be disinfected daily.
- All high touch areas and restrooms will be disinfected frequently during the school day.
- Students in 1st grade and up will be asked to clean and sanitize their work area, including desk and chair, prior to switching to their next class.
- Teachers/staff will disinfect and sanitize high touch areas such as door knobs and handles between each period.
- The cafeteria will be disinfected between each meal and between each new group of students.
- Staff/Students will have access to disinfectant wipes to sanitize working surfaces and shared objects after each use and during breaks in instruction.

Common Areas:

- Common areas include spaces that are used by multiple groups of students or staff for instructional activities, eating, play, meetings and collaboration. This includes computer labs, cafeterias, gyms, playgrounds, flexible spaces, campus libraries, conference rooms, workrooms and other meeting rooms.
- Proper handwashing technique will be taught to all students and consistently reinforced.
- After a restroom break, students will be required to wash hands and/or use hand sanitizer before reentering the classroom.
- Restrooms will be disinfected at multiple times throughout the day.
- When transitioning during the day working surfaces will be cleaned in between transitions.

Breakfast and Lunch:

- During low transmission levels, cafeteria capacity and seating arrangements will be determined by campus policies
- During moderate or substantial transmission levels, as much physical distance as possible will be provided around each occupiable seat.
- During moderate or substantial transmission levels, signage and staff will reinforce physical distance and traffic patterns in the cafeteria.
- Hand sanitizer stations will be available at entrances and exits of the cafeteria.
- All tables will be sanitized between lunches.
- Cafeteria staff will follow all health and safety protocols as required by health department.

Arrival:

- Doors will open at 7:20 in the morning.
- PK and Kindergarten will use separate entrances and exits to reduce traffic.
- All staff will be utilized for duty to maintain a line of sight in hallways and distancing of hallway cohorts.
- Campus-specific bus procedures will be established.

Dismissal:

- Campus-specific bus procedures will be established.
- Parents **must stay** in their vehicles when picking up students in the afternoon.
- Parents **may not** park and walk up to pick up their students, except for parents of pre-k and kindergarten students. There can be no congregating in front of the fences or walkway.

PE/Art:

- PE classes will be conducted outdoors when possible.
- Students will use their own art supplies when possible.
- Art and PE equipment will be sanitized and wiped down after use.

Field Trips:

Availability of field trips will be determined by risk levels.

Recess/Playground:

- Administrators will develop a schedule for students to access the playground equipment.
- Teachers will monitor students to ensure safety guidelines are followed.
- Staggered schedules and consistent cohorts will be utilized.
- All students and staff will be encouraged to wash their hands or use alcohol-based hand sanitizer before entering the playground and upon exiting the playground.

Athletic games:

- All spectators **will be required** to abide by UIL health guidelines.

Pick up/drop off car riders:

NOTE: SCHOOL DOORS WILL OPEN AT 7:20AM THIS SCHOOL YEAR

- Elementary students 1st grade- 5th grade drop offs will take place in front of the Elementary School.
- Pre-k and Kindergarten will be dropped off at the south gate.
- All Junior High and High School student drop offs will take place in front of the High School.
- Faculty, staff, and students with temperatures of 100.0 degrees or higher will be unable to attend school/work until they are further assessed by a doctor and have a note with return date, have a documented underlying condition, or have been assessed by the school nurse. If you are unsure if your child should or shouldn't return to school please contact the school nurse 903-243-7077.

Bus transportation:

- Students in the same household will be seated together.
- All buses will have masks available and hand sanitizer placed in the stairwells for use when loading/unloading.
- Bus will be disinfected after each route.

Walkers and drivers:

- Will report to the appropriate entrance location. Students with temperatures of 100.0 degrees or higher should be immediately provided with a mask if not already wearing one and sent to the school nurse.
- Nurse will assess the student and place them in an isolated room. Nurse will make contact with the parent.

Health Office Procedures:

- When students report symptoms while at school or staff suspects or observes symptoms of illness, students should then be taken or sent to the nurse for evaluation.
- Students with possible COVID-19 symptoms will be placed in a separate room away from the main health office to allow use of the health office by other students for continuing health needs.
- Mask, gown, or eye protection may be worn by the nurse when evaluating students members with symptoms of illness.
- Coordinate with the student's family and health care team: Plan for acute respiratory treatment care using up to date standard of care. Nebulizer treatments are identified by the CDC as aerosol-generating procedures requiring a N95. Consult with a healthcare provider for alternate asthma medication delivery systems such as therapy delivered by metered dose inhaler.
- Any student/staff member with possible COVID-19 symptoms may be sent home regardless of absence of fever. Each situation will be evaluated and options will be explored and explained.
-

Conclusion: This protocol will help guide the Cumby ISD health office. These practices are subject to be updated and changed based on new evidence-based materials that are recommended by the CDC, DSHS, or other governing health officials.

Continuity of Services Teaching and Learning 2022-2023

Face-to-face learning will be the only mode of instruction offered in Cumby ISD for the 2022-2023 school year. It is in the best interest of our students to be in school. Assessment data shows deficiencies across the district in reading and math. Below are steps the district plans to implement this school year to help close achievement gaps in reading, as well as boost student achievement in all subjects through interactive technology devices. Cumby ISD has developed the following plans to provide a road map for staying on track as we strive to mitigate learning loss for all students. This Back to School Plan will work in conjunction with district and campus improvement plans for this school year. The primary instructional goals for this school year will be to:

- Create rigorous, engaging learning environments.
- Create a culture of high expectations-every class, every day for all students.
- Adhere to our guaranteed and viable district curriculum.
- Provide high-impact tutoring for our most at-risk students.

Each campus will adhere to the guidelines set forth in our Cumby ISD 22-23 Academic Action Plan, as well as the targeted needs outlined in campus-specific action plans that reflect the needs of individual campuses.

INSTRUCTION AND INTERVENTION

- **Reading and Math Academies** - Cumby Elementary/JH will host Reading and Math Academies during the 2022/2023
- **High-Impact Tutoring** - Cumby ISD will provide high impact after school tutoring for students in reading and math. Tutoring will begin in September 2022 and conclude in April 2023. Delivery will be by trained instructional staff in high impact tutoring strategies.

PROFESSIONAL DEVELOPMENT

- **TEKS Resource Reboot** - Cumby ISD will conduct extensive/ongoing training of all components of the TEKS Resource Curriculum. Training will be provided through Region 8 ESC and by district and campus administrative staff.
- **Google Training** - Cumby ISD will continue to provide Google Suite training to teachers. Although the district will not provide remote learning as an option for students, staff will continue to use the Google tools to communicate with students and parents, as well as engage students in more robust learning opportunities through these digital tools.
- **Reading Academies** - Cumby Elementary School will send 6 teachers to the state required reading academies. Six teachers and one administrator completed the academy during the 20-21 school year.

TECHNOLOGY

- **Additional Chromebooks and Laptops** - Cumby ISD will continue to add chromebooks to each campus so that all students in the district will have access to the latest technologies that help boost student achievement.

SOCIAL EMOTIONAL LEARNING

- **District Value Focus for 2021-2022** - Cumby ISD's core values are learn, work, serve, and respect. The focus for this school year is on SERVICE.

Activities will be coordinated at all campuses throughout the school year that reinforce this core value.

- Cumby ISD hired a full-time social emotional counselor.
