Dear Parent/Guardian:

The Oklahoma Promise program provides scholarship opportunities for students who meet certain criteria while enrolled in the eighth, ninth, and tenth grades. Oklahoma Promise is an avenue for some of our students to earn their way to college. When students successfully complete the program requirements, Ok Promise will pay **tuition** for up to 129 credit hours. It will also cover a portion of tuition to an accredited private college or university as well as a technology center. Oklahoma Promise does not cover books, fees, or housing.

The requirements for the OK PROMISE program are quite simple. The parents' federal adjusted gross income cannot exceed \$55,000 at time of application and proof of income is required. There are certain course requirements and behavior requirements that also must be met during the students' four years of high school. Students must also maintain a 2.5 grade point average through their high school years. The parent's income may not exceed \$100,000 while the students are enrolled in college.

I feel that this is a great opportunity for our young people to realize their educational goals. If you are interested in this program, you may apply online at www.okpromise.org. Please notify me that you have been accepted so I can make sure your child is taking the required courses they need while in high school. Remember, students may apply at any time during their eighth, ninth, or tenth grade year ONLY, but **MUST** apply before June 30 following completion of their **sophomore** year.

Sincerely,

Patti Tucker
