

James Skeeler, Superintendent

Bosqueville ISD

“Focusing on the Future”

I am excited to be at Bosqueville ISD and to have the opportunity to lead such a dynamic school district. Bosqueville ISD is committed to promoting a vision of educational excellence, success for all students, and a well-rounded academic and extracurricular/co-curricular experience for all students. We are very fortunate to have a talented and dedicated faculty and staff that focuses on keeping the student at the center of the educational process.

Bosqueville ISD strives to provide an opportunity for all stakeholders to participate in the development of short-term and long-term goals for the district. Our hope is that the education of our students is an effort by all in the community in order to promote pride in all of the accomplishments of the students and staff of the district. We view the education of our students as a partnership that will create opportunities beyond high school and allow the students to be successful in their chosen endeavors.

We work to create an environment where our students and staff are sincerely valued and opportunities are given to them to be successful. We strive to create an organization that promotes growth both socially and academically for our students, and also to create opportunities for our staff to advance professionally. We strive to improve each and every day and to build on our many areas of excellence to ensure continued success.

At Bosqueville ISD we strive to honor the past, celebrate the present, and plan for the future!

Your Partner in Education,

James Skeeler

Superintendent of Schools
