Reviewer Comments:**Body Mass Index (BMI)**

Hint

- The school has conducted an analysis of the School Level Body Mass Index screening data.**

Develop a brief narrative of student BMI trends based on the analysis of the data.

Each year, students are screened and receive a body mass index score. Parents are sent a copy of the student's data in the fourth nine weeks report card. The school health and wellness committee uses this data to address any present needs. According to the Arkansas Center for Health Improvement Report, the BMI classification for students by grade for Elementary are as follows:

Kindergarten - 71.4% are considered Healthy or Underweight with 28.6% are considered Overweight or Obese.

2nd Grade: 64.3% are considered Healthy or Underweight and 35.7% are considered Overweight or Obese.

4th Grade: 58.8% are considered Healthy or Underweight and 41.2% are considered Overweight or Obese.

Overall, BMI classification results for Elementary School show: 67.1% measured healthy or underweight, approximately 12.3% of all children measured were in the overweight category, and approximately 20.5% of all children measured were identified as obese.

Other Health and Wellness Related Data (Optional)

Hint

Develop a brief narrative of other health and wellness data. (Optional)

During the 2019-2020 school year, the Woodlawn Elementary School participates in a breakfast in the classroom where students are provided choice on meal selection. During the current year from August 15 to August 30, 2019, over 2099 Breakfasts were served which tripled the number of meals served for breakfast alone.

Section III: Health and Wellness Goals

Indicate the LEA's compliance with the following Act 1220 requirements:

- The LEA will coordinate with child nutrition personnel to ensure menus are reviewed quarterly by the district wellness committee.
- The LEA will ensure that the district policy is in compliance with state and federal mandates.

Goal 1: The LEA will provide coordination and support to create a healthy nutrition environment for students.

Hint

Goal 1 Measurable Objective

Woodlawn Elementary School creates a healthy nutritional environment by providing all students breakfast in the classroom and lunch, while also following state standards to educate them on the importance of healthy nutrition each morning in the classroom during breakfast and during health and physical education classes.

Goal 1

Activity	Person Responsible	Timeline
----------	--------------------	----------

<p>The Woodlawn Elementary provides and meets all federal guidelines for school nutrition. All students are given two healthy food choices each day for lunch and two healthy food choices for breakfast. Woodlawn Elementary provides offer verses a serve process that provides more options for children while giving students choices to make healthy nutrition decisions.</p>	<p>Director of Food Services</p>	<p>August 15, 2019 to May 2020</p>
<p>All classroom teachers and Physical Education Teacher of the Woodlawn Elementary School follow the appropriate Arkansas Physical Education and Health State Standards. Implementation of the State Standards allows all students to receive a grade appropriate nutrition education.</p>	<p>Principal K-6; Classroom Teachers; and Physical Education Teacher</p>	<p>August 2019- May 2020</p>
<p>The Woodlawn School District's representative serves as the district wellness contact and leads the district wellness committees. The Woodlawn School District representative reports to the wellness committee all goals, plan implementation progresses, and outcomes from the improvement efforts of the committee and building staff. All activities are in place to improve the health education and well being of the students in the elementary school. The district representative works to ensure that all district wellness policies are updated and in compliance with the federal and state requirements.</p>	<p>Wellness Administrator of School Based Health</p>	<p>August 2019- May 2020</p>
<p>The Woodlawn Elementary School follows all general requirements for food and beverages in public schools. All food or beverage items during the school day for up to nine (9) different events each annual school year. The items among the 9 items, are not to be provided during meal times nor in the areas where school meals are served or consumed. The nine (9) Food dates are submitted to the ADE for review annually.</p>	<p>Principal; Wellness Committee</p>	<p>August 2019-May 2020</p>
<p>The Woodlawn School District provides over 20 minutes of seat time for student lunch consumption in a pleasant and healthy environment.</p>	<p>Principal; Wellness Committee</p>	<p>August 2019-May 2020</p>

<p>Locally grown produce is used to promote Child Nutrition Programs including student, community, and staff participation. Local produce may include sweet potatoes, tomatoes, cucumbers, zucchini, and squash. Scientifically sound, evidence and assessment based, sequential curriculum are used for K-6 nutrition education. A Day with the Chef is offered through the alignment of the Woodlawn Elementary School and K-12 Culinary Connection (2 students per grade are selected by peers for participation and input) The recommendations from the selected students are gathered and criteria are set and shared with the student body. The Woodlawn Elementary School will collaboratively work with the Center for Health Advancement from the Arkansas Department of Health to launch the use of a water filling station Kick off Event during the month of September of 2019. Students will have access to a water filling station during the time they are in the cafeteria.</p>	<p>Principal: Wellness Committee; Principal; Science/Health Classroom teachers, Students, classroom teachers</p>	<p>August 2019-May 2020</p>
