

View Student Information

Parents have access to their student's information online through the Skyward Family and Student Access. Parents will be able to see all of the student's grades including the assignments, quizzes, and test grades. Other information available to view through the system includes attendance, discipline, and student schedules. Please remember that there are times that an assignment is listed that grading is not completed and the average may not be accurate. If parents have questions about grades or assignments we encourage you to contact the teachers for clarifications.

To request access to this system please contact Wilson Judd wilson.judd@visdtx.org

Please complete the form on the right and include it with your e-mail or include the requested information in the e-mail. You can also contact him by phone at (940)553-1900
