

Senior Spotlight

Cody Anschutz

1. What advice would you give to underclassmen?

Cherish every moment of high school. It will be four of the best years of your life and it will be gone before you know it, so have fun and cherish every moment.

2. What has been your favorite class and why?

My favorite class has been weights because I enjoy getting swole.

3. What sports/activities have you been involved in throughout high school?

Football, Basketball, Powerlifting, Baseball, Band, FBLA, NHS, FCA, and StuCo.

4. What has been your all-time favorite memory from school?

My all-time favorite memory from school has been all of the locker room shenanigans since seventh grade.

5. What are your plans after high school?

I plan on attending college at either K-State, Nebraska, or Wichita State.

6. Who do you look up to? Why?

I look up to my mom because she is the nicest woman I know and will literally do anything for me. She has never missed any of my sporting events and puts up with me all the time, which is why I love her so much.

7. What is something about yourself that would surprise others?

I enjoy listening to music by T-Swizzle (Taylor Swift).

8. If you could be someone for 24 hours, who would it be and why?

If I could be someone for 24 hours, I would be Michael Phelps so I could put on my 28 Olympic medals just to see how much they weigh around my neck.

Haily Chenoweth

1. What advice would you give to underclassmen?

Don't stress over the little things like getting perfect grades on everything. Before you know it you'll be a senior. So enjoy high school. Don't spend it stressed out! 😊

2. What has been your favorite class and why?

Art. It's the only class I can go do or say whatever I want in because I know the people in there support me and are just as weird. Oh and Hanananana is the bomb.com!

3. What sports/activities have you been involved in throughout high school?

Volleyball, Powerlifting, Softball, NHS, and FBLA.

4. What has been your all-time favorite memory from school?

This is hard. Honestly high school is a blur. It went by so fast. One of the things I remember is in sophomore art, Lainey, Payton, and I were planning on making frappichinos and asked Hannah if we could bring in a "blender and supplies." The idea was turned down but we still bring it up to mess with her.

5. What are your plans after high school?

To go to ESU to major in art education. Or live in a box. Who knows? Not me!

6. Who do you look up to? Why?

Everyone. I am 5' tall.

7. What is something about yourself that would surprise others?

I really like school. I'm a nerd, I know. But, I just really enjoy it. It's why I want to teach.

8. If you could be someone for 24 hours, who would it be and why?

Payton Dow, to be able to hang out with myself and see what he *really* thinks about what we talk about. Oh, and to sleep all day. ☺ Love ya Pay!
