Business Activity Analytics

Occupancy & people counting - Measure occupancy and foot traffic. Receive a notification when real-time occupancy reaches a specified threshold.

People counting - Measure foot traffic through a certain area. Count how many people cross a virtual line in one direction.

Queue monitoring - Monitor people waiting in line. Receive a notification when the number of people in line or average wait time reaches a specified threshold.

Crowd gathering - Monitor large groups. Receive a notification when the crowd size reaches a specified threshold.

Heat mapping - Visualize where people spend the most time within an area during a specified date and time range using a heat map.

Onboard Recording with Smart View

Record encrypted, 24/7 HD footage locally on the camera with a microSD card. View live and recorded video on the Alarm.com customer website and mobile app from anywhere, using the Smart View video timeline to search for important events such as person detected or door accessed, and jump straight to the corresponding footage.

Two-Way Audio & Perimeter Guard™

Safely speak with delivery personnel, guests, or unwanted visitors from anywhere using the camera's powerful speaker and microphone. Plus, Perimeter Guard™ can proactively deter intruders with its attention-grabbing audio and flashing red LED alerts when someone is detected after hours.
