

WST-302 - Wireless Shock Sensor + Door Sensor – Honeywell/2GIG Compatible

Unlike traditional glass break technology, Ecolink's Shock + Sensor detects the moment of first impact, alerting the homeowner and Central Station before the intruder gets inside. Plus it's also three zones in one device for even more value.

- Compatible with Honeywell 5800 wireless and 2GIG Go Control
- Electro-mechanical sensor with adjustable sensitivity
- Built in reed switch with magnet (included)
- Terminals for external contact input
- Three independent serial numbers for unique reporting
- 2.875" x 1.625" x 1.0"
- Replaceable lithium battery (CR123A)
- 5-8 year battery life
- FCC and IC compliant

SKU: WST-302
