INTRODUCTION

Mr. Kennedy is the principal of Kennedy Consulting Group, LLC, a structural engineering firm located in Indianapolis, IN focused on structural condition assessments and due diligence reviews, structural repair design and forensic engineering.

Prior to starting his own consulting engineering practice, Mr. Kennedy spent over 16 years with national restoration consulting firms as a lead investigator, restoration engineer and project manager. His work involved review, analysis, repair design, and construction administration for projects involving parking structures, commercial buildings and plazas.

Mr. Kennedy also has over 15 years of construction experience, including management of the local office of a national concrete and masonry repair and waterproofing company.

EDUCATION

BS Civil Engineering
Purdue University
W. Lafayette, IN
