- AIA Pennsylvania - former Board of Directors
- Professional Services Management Association Philadelphia Chapter- Founder, Board of Directors, former President
- Professional Services Management Association (national) - former Vice President Professional Development, President Elect, President, Past President, and Board Member

General Experience

Mr. Vander Heide has over 40 years of experience as a registered architect in the construction industry. His professional experience includes the design of residential, commercial, and institutional/industrial facilities for public and private owners. He has managed both architects and engineers in several organizations. His career has encompassed design, analysis, and field problem solving of structural work for a manufacturer of space-frame systems; management, development, training and computer programming work in a large, multi-disciplined design firm; and management of professionals and project work as the owner of a large collection of public buildings in a major city. He has broad experience with codes and standards including the International Building Code, BOCA, the Uniform Building Code, and the Southern Building Code.

Mr. Vander Heide has also been a principal in his own firm since 1990, providing a broad range of architectural and architectural consulting services to A/E firms and the public. Mr. Vander Heide has testified in cases in Pennsylvania, New Jersey and New York and has been a juror in a Pennsylvania criminal case, and civil and criminal cases in Michigan.
