

Dr. Phil Chahine is a highly trained and experienced dentist who believes each patient is unique and different, thus requiring personalized and individualized care. Dr. Chahine's philosophy is to treat his patients like a friend in a professional, modern, and non-threatening environment. He takes the time to listen to their needs and help them understand the treatment. He is committed to provide exceptional patient care for optimum health while making them feel welcomed and comfortable in his state-of-the-art facilities. **It is not the tooth that is most important, it's the person behind the tooth!**

Dr. Chahine graduated in 2001 from the University of Montreal with a Doctorate in Medical Dentistry (DMD) degree at the age of 22, making him one of the youngest graduates ever for a DMD or DDS program. He completed his post-doctorate advanced training at The Ohio State University Medical Center, earning a **GPR** certificate in 2002. In June of 2007, Dr. Chahine received the prestigious Fellowship of the Academy of General Dentistry (**FAGD**), a distinction awarded to only 7% of North American dentists symbolizing excellence in the dental profession. Again, he is one of the youngest dentists in the country to ever receive this award, thanks to his commitment to provide the highest quality of dental care by remaining current in the profession. He is also an Invisalign Premier Provider having completed over 275 cases of clear aligner treatment over the years. As an Associate Fellow of the World Clinical Laser Institute and a member of the Academy of Laser Dentistry, he is trained to use conservative Laser therapy in many procedures that would usually require surgery. In addition, he is trained in the D.O.C.S. sedation protocols allowing him to make your visits more comfortable with conscious sedation. Dr. Phil has participated in research in the area of dental plaque resulting in his work being published. Dr. Chahine also has extensive training in the areas of endodontics (root canal therapy) and implant restoration.

Dr. Chahine is one of the premier dental providers in Central Ohio. He has been voted by his peers **Top Dentist in Columbus** in 2019, for the seventh year in a row. These surveys are published in the highly regarded Columbus Monthly magazine. He owns and operates two dental practices in Central Ohio under the name *Just Smiles, Family and Cosmetic Dentistry* with a total of 20 chairs. He and his team of five dentists provide high quality care in a modern, gentle and non-judgmental setting while being preferred providers for most insurance companies. His business success was highlighted by the company's inclusion in the prestigious *INC. 5000* list of the fastest growing private companies in America four times.

Dr. Phil undertakes regular postgraduate education classes to stay updated on the latest techniques and materials available in the world of dentistry. In fact, he has accumulated over 1500 hours of continuing education since 2002 and he is on track to obtain the Mastership of Academy of General Dentistry (MAGD). He also regularly lectures to the students at The Ohio State University School of Dentistry where he is a former Adjunct Professor. In addition, he speaks at study clubs and other professional dental organizations. He also served as a board member of the *Free To Smile Foundation*, an organization committed to treat the impoverished children of the world, for five years. Finally, he serves as the Official Dentist for the *Nationwide Children's Hospital Championship Golf Tournament* held yearly at The Ohio State University Golf Club. In 2016, he was also selected as the Official Dentist for the U.S. Senior Open at the Scioto Country Club – the golf course where a young Jack Nicklaus honed his game - in Columbus, Ohio.

Dr. Chahine lives in Bexley with his wife Liz, daughters Leila and Ava, son Alexander and their beagle Bonnie. In his spare time, Dr. Phil enjoys good food, skiing, golfing and traveling. He is also a huge fan of the band U2 and even bigger hockey fan, mainly rooting for the Montreal Canadiens and hoping they win the Stanley Cup every year! Unfortunately, he retired from active playing due to injuries.
