MAJOR RESEARCH INTERESTS:

My major research interests are centered around evidence-based medicine relating to cutaneous oncology and dermatologic surgery. As such, I am interested in defining guidelines of treatment and optimizing detection, prevention of, and treatment outcomes for skin cancers. Optimizing includes cost-effectiveness, value, and patient prioritized factors.

TEACHING EXPERIENCE:

Please refer to Teaching Portfolio (Musculoskeletal lecture series to UAB SOM, skin cancer lecture series to genetic counseling program students, Dermatologic Surgery Core Curriculum to dermatology residents and Micrographic Surgery and Dermatologic Oncology Fellow). This includes Micrographic

Surgery and Dermatologic Oncology fellows since 2008 and
Dermatology residents and medical students since 1998.
