10615 Shadow Wood Dr

Houston TX 77043

Allen@constructionexperttx.com – 281-236-8043 mbl

Founder and President of:

Griffin Interest LLC. DBA – Gryphon Builders – Founded in 1999

Gryphon Builders is a twenty-year-old design/build company servicing the custom home building and high-end remodeling market in affluent areas of Houston. Working on homes built primarily in the 1960s, renewing and incorporating the latest building science of today. We have completed many new home builds, additions to older homes, Second-floor additions and complete renovations of older homes with and without additions. We are proud to have designed and build the first Green Renovation with Additions in the nation in 2009. Typical projects \$100k - \$850K

Griffin Interests LLC. DBA – Viewpoint Designs – Founded in 2002

Viewpoint Designs is the internal company that services the design/build segment of Gryphon Builders. In 2016 we started servicing homeowners, builders and remodelers within the Houston & Austin markets. We utilize CAD software that produces not only construction drawings for permitting but also 3D visual models of as-built and new buildings. The program can produce color realistic pictures, video walkthroughs of a building and building modeling that can be used to understand the finishes and the structural components of a building. We have used these tools to create models and repair protocols for our cases.

GPS Interests LLC DBA- Gryphon Property Services – Founded in 2008

Gryphon Property services was formed to service the upkeep and long-term planning of maintenance needs of large townhome communities and apartment complexes. GPS serviced Memorial Drive Townhomes for four years and had developed a ten-year maintenance plan for the community.

Allen's construction background includes the basics of hands-on experience wherein the late 80's he started out as a framer and then worked for small custom builders in the northeast. Where the builders hire a few craftsmen to do all the work when building homes. This experience has been invaluable to Allen in directing others as a builder and business owner.

Then, as an outside salesperson for Bison Building Materials, Allen gained his background knowledge in manufacturing and engineering of building products and their proper usage. The knowledge gained and the industry connections of this experience have significantly bolstered Allen in the operations of his residential construction companies.

Most importantly, Allen is an effective communicator. He has spent twenty plus years selling large construction projects, writing construction contracts, specifications, estimating complicated residential buildings, remodeling projects & maintenance systems. In addition, he is actively involved in leading his industry through his involvement in the state and local builder association.
