You Say You Want a Revolution: A Compelling & Cautionary Tale of What Lies Ahead

Feel like you're standing on quicksand? That the world is shaking...there's something terribly wrong? You're not alone. Now, Dr. Pastor—a recognized expert in public safety and security—pulls together compelling facts and logic that will show you what you are feeling: we are living in a revolutionary climate. As dangerous as this sounds, there is still time to act.

Dr. Pastor points out how to regain stability and rationality in a world gone mad. Using extensive research coupled with wide ranging experience, this book helps us understand what is happening, why it's happening, and what can be done about it...

Terrorism & Public Safety Policing

The trends, data, and battle-tested logic don't lie. A perfect storm of extremist ideologies is on the horizon that threatens to challenge the current state of public safety—forcing police chiefs, public administrators, and security professionals to rethink their approach to policing the streets of America. Professor James Pastor, a recognized authority on policing and security, draws on three decades of experience fighting on the front lines against domestic terrorism to identify key indicators that point to an increase in extremist violence and terrorist threats here at home.

Security Law & Methods

Security Law and Methods examines suggested security methods designed to diminish or negate the consequence of crime and misconduct and is an attempt to understand both the legal exposures related to crime and the security methods designed to prevent crime. The clear and concise writing of this groundbreaking work, as well as its insightful analysis of specific cases, explains crime prevention methods in light of legal and security principles.

Divided into five parts, Security Law and Methods discusses the topics of premises liability and negligence, intentional torts and claims, agency and contract-based claims, legal authority and liability, and the subject of terrorism. It also offers an evocative look at security issues that may arise in the future. The book serves as a comprehensive and insightful treatment of security and is an invaluable addition to the current literature on security and the law.

The Privatization of Police in America

Today the private security industry employs approximately 1.5 million people and spends over \$52 billion annually. In contrast, public police forces employ approximately 600,000 people and spend \$30 billion annually. Private policing promises to be a big part of the response to today's increased security concerns, as citizens realize that security is much more than the presence of guards and the perception of safety. This book addresses the impact and implications of private policing on public streets and begins with a look at private policing from conceptual, historical, economic, legal and functional perspectives. These approaches provide the background for the text, which focuses on a private policing patrol program in a community on the south side of Chicago.
