James Pastor, PhD, JD, Assistant Professor in *Public Safety* at Calumet College of St. Joseph; *President of SecureLaw Ltd.*; and formerly Adjunct Instructor at Northwestern University-Center for Public Safety.

Long-awaited fresh treatment of security law

Security Law and Methods examines suggested security methods designed to diminish or negate the consequence of crime and misconduct. It helps readers understand both the legal exposures related to crime and the security methods designed to prevent crime. The clear and concise writing of this groundbreaking work, as well as its concise analysis of specific cases, explains crime prevention methods in light of legal and security principles.

KEY FEATURES:

- Discusses security best practices in light of current case law
- Contains up-to-date case law, with linking of legal principles and security methods
- Includes extensive analysis of liability related to crime and misconduct, and of best security practices that reduce exposure
- Provides an overview of legal theories related to security and the civil litigation process
- Offers expanded subject matter that reflects contemporary American society, including terrorism indicators, sexual harassment, workplace violence, and private-public “policing”
- Includes cases with comments and discussion questions
- Suggests additional research topics and relevant cases for further study

Organized in five parts, *Security Law and Methods* discusses the topics of: premises liability and negligence, intentional torts and claims, agency and contract-based claims, and legal authority and liability, as well as covering terrorism and recent shifts in the legal landscape of private security. It also presents an evocative look at likely security issues of the future. The author began his career with the Chicago Police Department, earned a PhD in Public Policy Analysis as well as a law degree, and has taught at the college level for many years. This text is an insightful treatment of security, and an invaluable addition to the current literature on security and the law.
