Supplemental Non-GAAP Financial Measures (Unaudited)

Adjusted earnings is a non-GAAP financial measure that the Company is providing in this press release. Adjusted earnings is net income calculated in accordance with generally accepted accounting principles ("GAAP"), adjusted for special items. The Company presents this non-GAAP financial measure because management uses adjusted earnings to compare its operating performance on a consistent basis over multiple periods because they remove the impact of certain significant non-cash credits or charges and certain infrequent items impacting net income. Adjusted earnings is not a measure of performance under GAAP and should not be considered in isolation from, or as a substitute for, net income calculated in accordance with GAAP. Adjusted earnings herein may not be comparable to similarly titled measures of other companies. The following table reconciles net income to adjusted earnings:

Supplemental Non-GAAP Financial Measures (Unaudited)

EBITDA, as defined is a non-GAAP financial measure that the Company is providing in this press release. EBITDA, as defined reflects net income attributable to Park-Ohio Holdings Corp. common shareholders before interest expense, income taxes, depreciation and amortization, and also excludes certain non-cash charges and corporate-level expenses as defined in the Company's current revolving credit facility. The Company presents this non-GAAP financial measure because management uses EBITDA, as defined to assess the Company's performance and believes that EBITDA is useful to investors as an indication of the Company's satisfaction of its Debt Service Ratio covenant in its current revolving credit facility. Additionally, EBITDA, as defined is a measure used under the Company's current revolving credit facility to determine whether the Company may incur additional debt under such facility. EBITDA as defined is not a measure of performance under GAAP and should not be considered in isolation from, or as a substitute for, net income or cash flow information calculated in accordance with GAAP. EBITDA, as defined herein may not be comparable to similarly titled measures of other companies. The following table reconciles net income to EBITDA, as defined:
