Join the AWS St. Louis Section for a Fronius Welding Demonstration!

Dear Members,

We invite you to join us for a welding equipment demonstration at the Boilermakers Union, Local 27. Our demonstration will be led by the Fronius USA team. Fronius is a manufacturer of battery charging systems, welding technology, and solar electronics (inverters). The company is family-owned, and its Perfect Welding Division is now one of the world’s innovation leaders in the arc welding market segment. The Fronius USA team will be showing the advantages of their TPS/i (Trans Process Solution), TP180 (Portable Stick/TIG Inverter), and Accupocket weld systems.

We would like to thank the Boilermakers Union, Local 27 for allowing the St. Louis AWS to use their facility. The demonstration is open to everyone, but please RSVP so we can have an idea of attendance.

RSVP: Becky McDonald 314-533-3100 or e-mail becky.mcdonald@airgas.com

Date & Time: February 22nd, 2018 Please arrive at 5:30PM Meeting will start at 6:00 PM

Speakers: Mr. Jasen Friedrich Mr. Donald Tipton Mr. Ken Duckworth

Location: Boilermakers Union, Local 27 1547 South Broadway St. Louis, MO 63104

Sincerely,
Robert Lee
AWS St. Louis Section Chairman
