

American Welding Society

Central Louisiana Section 509

March 2020 meeting announcement

Greetings AWS Central Louisiana Section Members & Friends,

Our February meeting at Quality Fabrication and Welding was our most attended meetings this year, 8 members and guests were in attendance with 16 students. Mr. William Spurgeon presented a very insightful presentation on his welding experiences. After his presentation Mr. Spurgeon exhibited his aluminum GTAW techniques and then allowed many of the students to give it a try, it was very encouraging to see some of these students welds after only watching one demonstration.

Our next meeting will be at Tunks Cypress Inn where we will be thanking our Business and Community sponsors for their support of our Section. All members are invited to attend this meeting.

Dinner Cost \$25.00 (cash bar)

Prior RSVP is required
