Annual Welding Showcase and Competition

Event Details:

6250 HWY 31 North, Tanner, AL, 35671

Calhoun will be hosting the annual AWS welding showcase and competition on their Decatur campus for AWS members, students, friends, and family. The event will include welding competitions for all skill levels, as well as a showcase of Polaris Industries and their different models of on-road and offroad vehicles, and construction demonstrations held by Turner Construction. Also in attendance will be members from American Society of Quality Chapter 1503, American Society of Nondestructive Testing, and AWS careers in welding. Lunch will be provided and all are encouraged to attend.

Competition Details:

Beginner Competitions:

SMAW 2F & 3F - 1/4" thickness by 6" long Tee Joint (1/4" weld size) OR
GMAW 2F & 3F uphill - 1/4" thickness by 6" long Tee Joint (1/4" weld size)

Advanced Competitions:

FCAW 2F & 3F - 1/4" thickness by 6" long Tee Joint (1/4" weld size) OR
SMAW 3G - 3/8" thickness and 7" total width by 7" total length per
AWS D1.1 (grooves passing visual may be subject to certification)

Each school may bring as many competitors as it wants. Competitors/Schools are responsible for bringing their own competition metal. Consumables will be supplied. Prizes will be awarded for each competition. The highest placing HS Senior in each Advanced Competition will win a \$1000 scholarship from the American Welding Society.
