

AWS Lakeshore Section Tour of:

March 28th, 2019

Founded in 1960, Formrite is a full-service tube fabricator with a nearly 70-year history of excellence. Formrite produces components for both fluid carrying and structural applications and is a tier one supplier to OEMs like John Deere and Caterpillar.

In its 400,000 square feet of manufacturing space Formrite has capabilities to bend & form, laser cut, paint, powder coat, robotically weld, braze, and even burst test final products.

Please join us for this exciting tour of the largest facility of its kind in the region!

During dinner there will be a 50/50 raffle to raise money for the scholarship fund.
