OCTOBER 2020 ISSUE 283

October 8th Zoom Meeting

featuring

Todd Kelsey

Post Alloy - Hardface Technologies
Western Region Sales Manager

presenting on

Advanced wear resistance technology
and the effects of build-up and hardfacing

Todd Kelsey has been in the manufacturing and sales side of welding products since 1983. He started his career with Liquid Air Corporation (Air Liquide). In 1989 he purchased their branch in Bellingham, WA, renaming it Airweld Industrial Supply, servicing all four major oil refineries in the Pacific Northwest with cylinder gases and welding supplies. After selling his company in the late 90's, he has worked and focused in the welding filler metals industry, working for companies such as ESAB Welding and Cutting Products, Böhler - Welding Group (Voestalpine), and Airgas.

Today, Todd works for Postalloy/Harface Technologies specializing in helping customers extend their wear parts life in the industries of mining, recycling, agriculture, drilling, and construction.

This will be a virtual meeting
via the Zoom video conferencing
service online

Meeting Time:

Intro 5:30 - 5:45

Program 5:45 - 6:15

Questions 6:15 - 6:30

Group chat 6:30 - 6:45

Participants will be muted
upon entry, so please
unmute yourself to speak,
although please hold most questions
about the presentation until
the end.

TECHNICAL QUESTIONS

We will take technical questions
about the presentation at the end.
If you have technical questions
of a different subject, please direct
them to Steve Pollard and we can
discuss.

Passcode is 148954, Invite link:
