

AWS Presents:

Hyperfill:

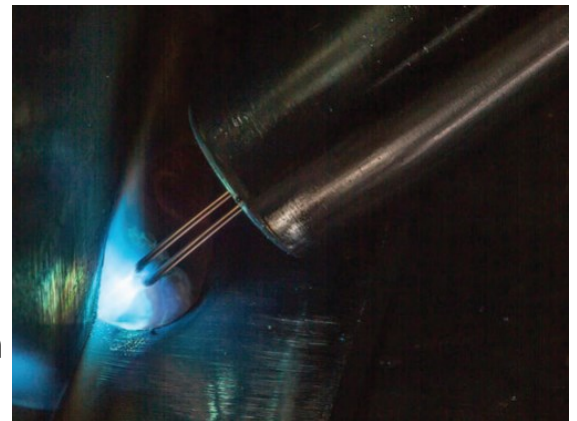

American Welding Society

Higher Deposition. Lower Difficulty.

Discussion and Demo Night

Lincoln Electric's newest technological advancement utilizes waveform control and two small-diameter mig wires to increase weld metal deposition by 1.5x. All this is capable through just one power source and one mig gun. Come see, and try, the newest welding process from Lincoln Electric!

Presented at:
Vacuworx Global Weld Shop
10808 E. 55th Pl.
Tulsa, OK 74016
