Archery has long passed and deep in the veins of every person. Ancient tribes used hoops as weapons for the hunting of wild animals. Creating a little more, archery is the theme of the royal tribe to entertain and show its power in hunting large beasts. Now in the era of development, archery has been incorporated into one of the Olympic sports, with the participation of many countries around the world. So, do you want to experience what archery feels like? Now with the release of the game archery club: PvP Multiplayer can experience a sense of archery directly on your phone. Produced by BoomBit Games, the publisher has released many popular names such as Tiny Gladiators, Build a Bridge!... all which are popular games. The game will help you transform into a professional archery player, you will feel the careful care that the archer needs. Gameplay Game has a pretty simple game, just shoot the bow, aim carefully and shoot. However, in order to ensure nonsense, the player must carefully monitor to ensure that. Not only does constantly raise the bow in order to be able to shoot, you need to monitor environmental factors such as wind force, hands inaccurate ... As soon as you master these elements, you promptly click. To hold the bow, the player uses his finger to touch and drag to the screen. When you raised the bow and arrow, the hand shaking will allow you not to look at the position, you only have part 1 Shoot the target before it's too late. To shoot, just release your finger from the screen. Game mode Total game is 3 3 game modes with different requirements. The first mode is Shortbow, in this mode the match takes place in just 30 seconds. In the meantime, you will try to shoot as many targets as possible, which will teach the player instant reflexes. The second mode is Longbow, it's a game without a time limit, but a goal limit. Each player will have 3 shots and 3 goals. After each shot, the target will be replaced and another distance is placed, so it will be difficult to get star points. Players need to be careful and take the time to shoot. The final mode is compoundbow, in which players must have a strategy to play to achieve a high score. There will be a lot of targets, the player will decide which one he's going to shoot at. Sometimes a standard shot is not necessarily a high shot, so carefully choose your strategy to win. FEATURES Archery Club: PvP Multiplayer has dozens of great features and will make you very pleased. REAL-TIME MULTIPLAYER All game modes are played with other players around the world and you will be able to participate in real matches. This will increase the complexity, authenticity and fun of the game. The equipment system in the game contains many pages related to the arc and arrow of the symbol. This equipment will be unlocked when you win matches with other players or you can unlock them with game money. Up to 4 different equipment to form a full arc and arrow. In addition, players can upgrade to make them stronger and improve the number of goals achieved. Even if the equipment is good, the player's skills are still more important than all, carefully improving their skills. Arena Game has many different game maps, creating diversity and not boring players. There is a green grass place surrounded by majestic mountains, where there is a playground for ancient palaces, luxurious and majestic, and there are places covered with snow with strong winds. Even participated in a large tournament with surrounding stands filled with spectators. GRAPHICS archery club has the brightest and most realistic 3D format. For a game with lots of honest elements, such as weak wind strength, earth gravity ... Along with 3D graphics from a first perspective, it increased the authenticity of the game. EFFECTS & SOUND Game effects were also carefully taken care of by the creative team to ensure the liveliness and authenticity of the game for players.

The sound of the game is not inferior to the elements of the name, the sound of the wind, the audience, which delights ... everyone heard it very honestly. All the above elements work well together to form an archery club. So what are you waiting for without downloading the game right away? Immediately?
